

Hi everyone.

First of all, I would like to thank everyone that for the kind words I have received for taking pictures and putting them online. It is really a small thing and I'm glad I am able to do it for the team.

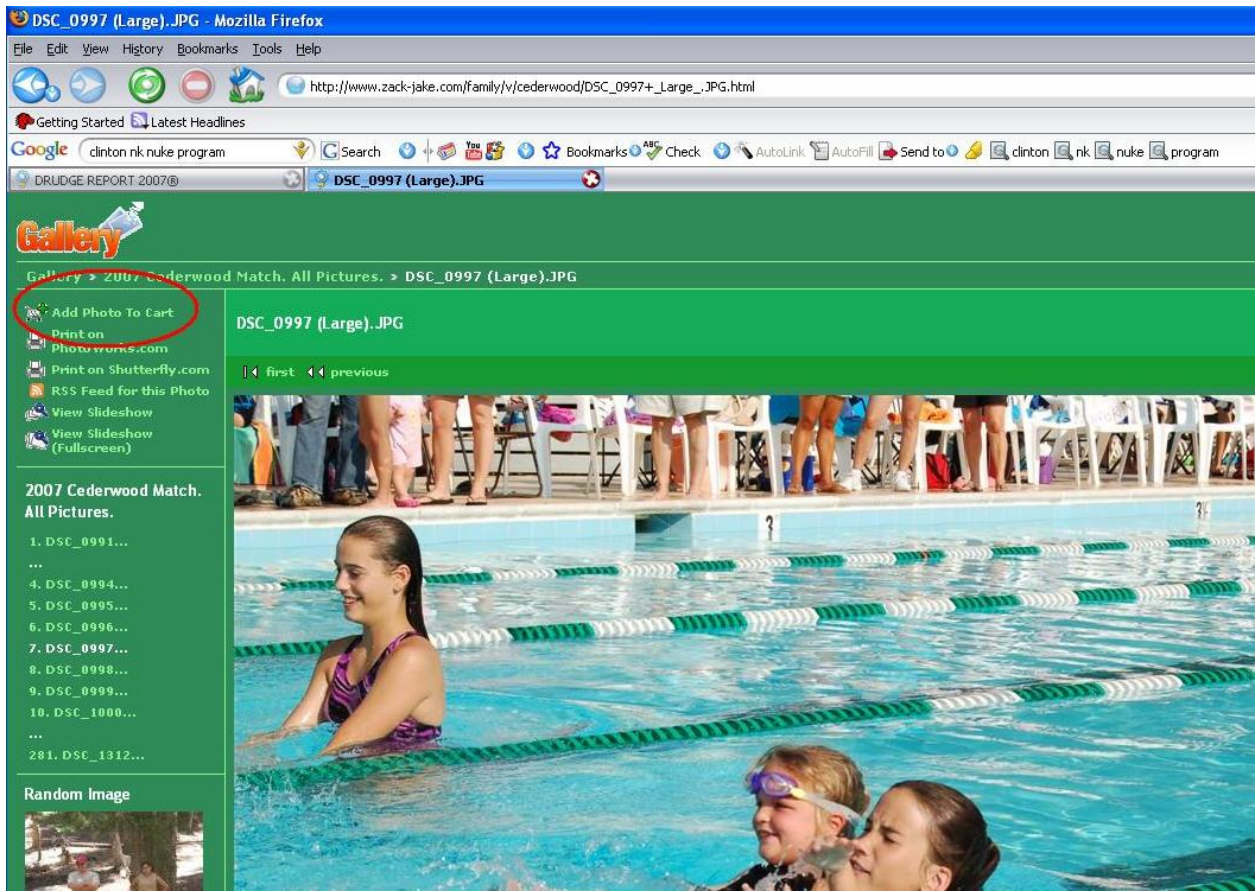

One of the most common questions I do have about the photo's though is how to order prints. There are a few ways you can do it but I recommend using Shutterfly.com. Tonja and I have used them in the past for creating photo albums and Christmas cards. They do a wonderful job and are very reasonably priced.

Below are step-by-step instructions on how to order pictures online from Shutterfly.com

Here is the main page you see when you go into the Swim Team Gallery. Clicking on the thumbnail picture will show you the full sized picture.

After clicking on a picture you will see it full sized on this screen. If you only want to print this one picture click the 3rd icon down (just below the red circle) on the left side that says **Print on Shutterfly.com** and that picture and your web browser will automatically be sent to their website (if you want to save this picture to your hard drive to print elsewhere put your mouse on the picture, right click and select "save as"). If there is more than one picture to print click the **Add Photo to Cart** link that is circled in red.

After clicking **Add Photo to Cart** you will end up at the screen below. Click **Back to photo** button circled in red to get back to the photo gallery. Continue this until you have all the pictures you want printed in your cart. **NOTE: One problem I have found is there is no direct link to view your cart from within the Gallery pages. So when you are ready to print your images and want to get back to your cart just select any picture and hit **add photo to cart**. You can then delete that picture from the cart after you are there.**

Quantity	Item	Type	Remove
1	 Title: DSC_0997 (Large).JPG Summary:	Photo	<input type="checkbox"/>

Now we have all the pictures in our cart that we want prints made of. Click the arrow on the box that says <cart actions> and select **Print with Shutterfly** and hit **Go**. (also notice the selection below “Print with Shutterfly” to “Download in Zip”. This will put all the photos into one “zipped” file that you can download to your computer.

And ZING! You and your photo's are on Shutterfly's website and you can select what size photo's you would like. Notice their site tells you which sized pictures will look best with the photo's I have on the website. If you would like a full resolution photo so you can make an 8x10 or 16x20 print please let me know the Photo Name (ie DSC_0991) and I will email the file to you.
